### SatGuide now in 8 languages: SatNav

Technologies is now making another remarkable progress by introducing voice prompts for its SatGuide service in 8 Indian languages. Language options available are: Bengali, English, Gujarati, Hindi, Kannada, Marathi, Oriya, Tamil and Telugu. SatGuide maps are also now available in HLG (High Level Graph) mode which generates route maps 3 times faster. The language options will be available on all the platforms like PDAs, phones, laptops and desktops. SatNav CEO Amit Prasad said: "We will also be raising up to \$ 5 million through a private equity placement soon which will further aid our current objectives." TNN
